

Here's What New Jersey Is Saying About NJKI:

"NJKI fills a clear niche providing access to credible information which is essential to continued innovation. We are glad New Jersey understands this need."

- Allen Stein, MD, PhD,
PortaScience, Inc., Moorestown

"I first used NJKI in support of a \$45,000 grant proposal from the New Jersey Commission on Science and Technology to develop an Insulin pump for drug delivery. I easily found the necessary information, and I was awarded the grant! Accessing the journals I need is as easy as signing on to my computer."

- Joseph Huang, MicroDysis, Inc.,
Trenton Business & Technology Center

"NJKI has helped to level the playing field regarding resources available in a small library compared to a large library at larger institutions."

- Library Director Paul B. Chervenik,
College of Saint Elizabeth

"(NJKI) raises the level of research at our campus, and subsequently the reputation of the school."

- Nina Solomon, Reference Librarian
Ramapo College of New Jersey

"All our customers, including our area businesses, find they can save time and effort using the NJKI resources."

- Principal Librarian Beatrice Priestly,
Long Branch Public Library

"It is really New Jersey tax dollars well spent."

- Wei-hsing Wang, PhD,
NicheUSA, Princeton

New Jersey State Librarian
Norma E. Blake
Invites You to

A Reception and Press Conference

To Mark the First Anniversary of

New Jersey Knowledge Initiative

And to Honor the Support of

State Senator Wayne R. Bryant

And
